

# Biological Washing Powder

## Description

Cleanline Biological Powder is a zeolite based, phosphate free laundry powder which is kinder on the water courses and our natural environment. A high quality bio powder with active fizz technology helps remove the most stubborn stains.

## Features & Benefits

- 100 wash pack
- Dermatologically Tested

## How To Use

- Pour the recommended amount of powder either directly into the dispenser drawer or into a dosing device.
- If using a dosing device place it in an upright position on top of the laundry in the machine.
- Do not pre-wash when using a device or put a dosing device into tumble cycles of washer driers.
